## **ARV** treatment history

Your choice of new and future drugs will depend on the drugs you have used in the past and the reason you stopped using them. This is mainly because of resistance and side effects. If you can't remember exact details, even rough dates are useful (ie taking AZT for 6 months in 6666 etc).

Drugs & combination (name+dose)	Date started	Date stopped	Reason
e.g AZT 300 mg	Feb 10	Jan 11	Fat loss from the face
